

Jonathan E. Shores, Jr.

Director, Mount Olive College @ RTP

Welcome to Mount Olive College at the Research Triangle Park! I feel sure that right now is an exciting time in your life as you decide to do what many believe is a lifelong dream, completing a college degree. I along with the rest of Mount Olive College am delighted that you have considered us to help you with this endeavor.

Of course you are probably overwhelmed at the number of schools that you have the opportunity to pick from. I can tell you that many of the schools that you will look at are great schools and your decision will be very hard. Here at Mount Olive College @ RTP we have several programs which may fit the degree program you are looking for:

[Health Care Management](#)

[Management and Organizational Development](#)

[Early Childhood Education](#)

[Criminal Justice for Professionals](#)

[Heritage Plus Program \(Associates Degree Program\)](#)

Several of the main advantages that Mount Olive College possesses are the fact that our programs are designed for working adults and students only need to attend class one night a week. Additionally, this one night is set for the entire length of the program (Cohort) so that if you classes start on Tuesday you will always come on Tuesday evenings.

Secondly, you never have to worry about books or syllabi; they are always provided the week before a class begins, allowing you time to review the material prior to attending class. We make this program as seamless as possible for working adults so that they do not have to worry about the little things but rather they can focus their time and energy on their studies.

Please take the time to view our website at www.moc.edu, even make a trip to our location here in RTP and make the decision for yourself. I would be happy to show you around and talk to you about the possibilities that Mount Olive College provides. Should you have any questions please do not hesitate to contact me personally.

Sincerely,

Jonathan E. Shores, Jr. MBA
